

# COMMUNITY INITIATIVES FOUNDATION

---

Yes, I would like to support the work of **Community Initiatives Foundation** to continue trauma therapy programs for the displaced children as well as to determine the viability of establishing a center for research and training. This center will ensure that those who care for children of trauma will be better prepared to meet their needs in the years to come as well as to be ready to assist other communities in the event of disasters in the future.

- Benefactor** \$10,000 +
